
Thomas R. Knapp has been a model railroader since the 1960s, when he joined the National Model Railroad Association. Later down the road, Tom became a Master Model Railroader! (#101)

Tom started in N scale but also expanded to included modeling in Nn3 which means: 3 foot gauge N gauge, which is a gauge not many of us attempt, because it requires a steady hand and good eyes.

The original NMRA NTRAK layout in 1974. Tom's NTRAK module included Nn3! Tom at one point in time was the Nn3 Chairperson for the NMRA Standards.

If you "Goggle" Tom Knapp these days you will discover that he has written many articles involving model railroading. There are even videos on YouTube.

Tom also began to manufacturer various products for model railroads. He is an exceptional highly skilled modeler.
